Status of the claims.

***Election/Restrictions***

Applicant's election with traverse of Group I in the reply filed on 9/28/09 is acknowledged. The traversal is on the ground(s) that examiner has not shown a lack of unity and that in a 371 and that they are linked by a single general inventive concept and that the claims are directed to one combination of categories. This is found to be persuasive because the examiner had given a reference that indicates that applicant's core is novel and a contribution over the prior art. GB-A-2-388 540 Bayer AG in 1449. is a core which does not have 2 N's. The restriction has been withdrawn.

Claims under examination were 1-18.

There were several 112 and 103 issues over the alkoxy and in the interview the examiner and the applicant's attorney discussed them.

The applicant submitted a supplemental amendment, canceling some of the claims, adding new claims limiting the R5 to be a phenyl carbonyl or a naphthyl carbonyl. The method claims were rejoined.

The examiner and the applicant's attorney discussed the originally presented claims.

Please see interview summary.

*The examiner and the attorney discussed potential rejections.*

112 2<sup>nd</sup> para for C0-C5 alkylcarbonyl, CO- carbonyl would be C=O only and chemically not possible.

The proviso because of art makes the C1-C5 alkoxycarbonyl groups also obvious, recommended deleting it.

Claim 13 had the term medicament comprising without any other ingredient, the examiner

Art Unit: 1625

suggested changing it to  
pharmaceutical composition with the carrier as given in claim 14.

Delete/claim 18 and amend claim 15 to read the antagonizing as given on page 69. ( delete  
preventing and treating)

The applicants amended the claims limiting them to specific substituents and now the  
claims 4, 6, 10, 14, 15, 18, 19-36 are now found to be allowable.
